Russian Influenza.

It Has Become Prevalent in Many Places.

THE EAST GREATLY AFFECTED.

Pneumonia and Death Immediately Following the Disease to an Alarming Extent in New York and Brooklyn—One-Tenth of the Population of Boston Affected—A Number of Cases in Chicago. Epidemic Form in Nebraska—Reports from Many Other Places.

NEW YORK, Dec. 28.—The number of persons in New York and Brooklyn suffering from influenza is very large and constantly increasing. In most cases the patient is subjected to severe muscular pains, catarrh, great debility, etc., with numerous concomitant discomforts, varying in some cases, running into affections of the bowels and others to those of the lungs.

While no instances of death due directly to influenza have been reported, the number of deaths from pneumonia has increased so remarkably as to indicate some connection between the epidemic of so-called influenza and pneumonia. For the past nine weeks the number of deaths from pneumonia has been respectively as follows: Fifty-seven, seventy-one, seventy-seven, seventy-five, seventy-two, sixty-six, eighty-seven, eighty-one, ninety-five. The last figures are for the week ending Dec. 21. The figures for this week will probably be over one hundred. There is hardly a business house or an office down town whose force of clerks has not been thinned more or less by "la grippe." Quite a number of policemen and firemen are laid up.

The same state of affairs exists in Brooklyn and Jersey City. The health board of all three cities claim that there is no danger from the epidemic. When reminded that the disease is taking on a more serious form in Europe, they point to the lightness of the attacks here, and say that the malady could grow much worse without becoming dangerous to life. As to the existence of three cases of typhus fever in this city, the officials claim that there is some doubt about the diagnosis in these cases, and assert that at any rate the measures taken to isolate the patients would prevent any spread of this disease.

How Chicago is Affected.

CHICAGO, Dec. 28.—The Russian influenza is said to have reached this city. Dr. T. O. Summers, a physician and surgeon who has passed through two epidemics of the disease in Russia, reports that since last Monday he has had fifteen cases for treatment. He predicts that in a week the disease will prevail in all sections of the city.

Dr. Montgomery, of the health office, said that several cases of supposed influenza had come under his notice, but he was not prepared to state that they were the genuine type of Russian influenza, although the symptoms were similar to those of the imported article.

Politicians Sneezing in Columbus, O.

COLUMBUS, O., Dec. 28.—There are scores of cases of influenza in this city, but all of them so far in very mild types. The health board officers say the epidemic will not assume a malignant form here, and those suffering from it go about their business as usual. It prevails mostly among children and young folks, though some of the state politicians assembled here for the senatorial fight are sneezing to kill, and make the corridors of the hotels resound with the current "la grippe."

Epidemic of Colds.

RICHMOND, Va., Dec. 28.—Influenza has not made its appearance in this city to any appreciable extent. There seems to be an epidemic of colds; running from the eyes, and considerable general bad feeling from the effects of such attacks, but only one case of serious illness has yet been reported from this cause. Physicians are not kept particularly busy from the disease, but druggists report that they sell more quinine than they have ever known before in the same time.

Albany People Alarmed.

ALBANY, N. Y., Dec. 28.—"La grippe" has taken a good grip in Albany and some people are beginning to get alarmed. The attacks, however, are very light. In one dry goods store fully twenty employees are home sick with the disease. The disease begins with severe nausea, followed by sneezing, like hay-fever. Physicians interviewed here say the only danger to be feared is that the natural weakening of the lungs under the attack may lead to pneumonia.

Epidemic in Nebraska.

OMAHA, Neb., Dec. 28.—"La grippe" is prevailing here in epidemic form. It is estimated that fully two-thirds of the people are suffering from it at the present time. It is in a mild form only about half of those attacked being confined to their beds if medical treatment is promptly given. There have been no deaths. Physicians look upon it as a developed stage of epizootic and successfully treat it from that diagnosis.

Two Thousand Cases in Philadelphia.

PHILADELPHIA, Dec. 28.—A prominent homeopathic physician told a reporter of the United Press yesterday that there were probably not less than 2,000 well defined cases of "la grippe" in this city. He said it attacked all classes alike, and in some families four members out of six were laid up with it. The disease, however, was of a mild type, and yielded readily to medical treatment in from three days to a week.

Do Not Think it Genuine.

BALTIMORE, Dec. 28.—Several cases of influenza have been reported in Baltimore during the past few days, but

there is no certainty as to their being real, genuine grippé. About thirty post-office employees are laid up with the trouble, none are, however, serious. The symptoms are heavy cold, cough, pains in back and limbs and general lassitude.

A Dozen Cases at Bradford, Pa.

BRADFORD, Pa., Dec. 28.—About a dozen cases of influenza have developed here this week. The symptoms are weak eyes, pains in the back and chest, violent coughing and sore throat. All of the cases are severe.

One-Tenth of Boston Affected.

BOSTON, Dec. 28.—The influenza is on the increase here. It is safe to say that over one-tenth of the population is affected by it. The symptoms are more like those of dengue fever than like those of the common influenza. Affections of the lungs are more numerous than usual, but physicians do not consider the situation alarming.

Expecting it in Pittsburg Next Month.

PITTSBURG, Dec. 28.—A few isolated cases of genuine influenza are reported in this city, but as yet no epidemic has resulted. Prominent physicians, who have been through similar plagues, expect "la grippe" to reach here in all its violence before another month has passed.

Negroes Free from the Disease.

NORFOLK, Va., Dec. 28.—Norfolk has Russian influenza in a mild form, and it is estimated that there are as many as 200 cases of it in the city. Most of those who have contracted the disease move in the best circles. The negroes seem to be entirely free from the epidemic.

Only in a Mild Form.

ZANESVILLE, O., Dec. 28.—The influenza has prevailed here to a slight extent for a week, but in a very mild form. The most serious cases only serve to cause patients to stop work two or three days. The distressing after effects have not been experienced.

Does Not Exist in Cincinnati.

CINCINNATI, Dec. 28.—So far Cincinnati has had no real case of influenza reported to the health board. Prominent physicians do not fear any serious results from the disease as the city is in a remarkable healthy condition at the present time.

No Serious Cases in Cleveland.

CLEVELAND, O., Dec. 28.—There is little or no influenza in this city. A few isolated cases that are perhaps genuine have been reported, and they are confined to travelers. There is nothing like an epidemic nor any indications of one.

No Signs of an Epidemic.

EVANSVILLE, Ind., Dec. 28.—Dr. G. M. Young and other leading physicians of this city, state that as yet there is no sign of an epidemic of influenza in this section. The air is dry and not favorable to the disease.

Not Recognized at Utica, N. Y.

UTICA, N. Y., Dec. 28.—In Utica and vicinity there are quite a number of cases of cold in the head, without cough, as is usual at this season of the year. If the disease exists here at all it is in a mild form.

Newspaper Men First.

EASTON, Pa., Dec. 28.—The grip has reached Easton and its first victims are Legman Lauffer, assistant editor, and William Neimay, a reporter for The Daily Express. The latter is confined to his bed.

Physicians Busy at Rochester, N. Y.

ROCHESTER, N. Y., Dec. 28.—There is a great deal of influenza in this city. It is not of a serious type but extremely annoying. The physicians, though kept busy, are handling it with success.

A Number of Cases in Jamestown.

JAMESTOWN, N. Y., Dec. 28.—Physicians report a number of cases, the symptoms of which resemble those describing the influenza. No obstinate cases have yet developed, however.

Influenza Closes a Theatre.

BOSTON, Dec. 28.—Owing to illness of Mr. Sothen's company from influenza, the performance at the Hollis Street theatre was abandoned last night, money being refunded to ticket holders.

Atmosphere Too Pure.

DULUTH, Minn., Dec. 28.—There is no case of influenza known in Duluth. The atmosphere of Lake Superior is too pure to admit of its existence.

Air Too Dry at Minneapolis Minn.

MINNEAPOLIS, Minn., Dec. 28.—No well developed cases of influenza have yet been reported. The air is too dry.

A Few Cases at Lynchburg, Va.

LYNCHBURG, Va., Dec. 28.—A few cases of "la grippe" are reported here.

No Cases at Auburn, N. Y.

AUBURN, N. Y., Dec. 28.—There are no cases of influenza in this city.

THE DISEASE ABROAD.

A Number of Fatal Cases in Paris and Epidemic at Many Other Places.

PARIS, Dec. 28.—The health department reports that on Christmas day 318 deaths occurred in the city, from all causes. The average mortality for the corresponding day for several years past is 200. One-third of the population of Paris is afflicted with influenza. The editor of The Moniteur Universel and three soldiers died from the disease at Versailles yesterday.

The Climax Passed in Berlin.

BERLIN, Dec. 28.—The influenza has crippled operations in the ship building yards in Flensburg, Kiel and Dantzig. In cases where the disease is slighted or not treated it engenders pulmonary disorders. The doctors say that the climax is passed in this city, and that the disease is on the wane. In consequence of the many cases in the guards all furloughs are suspended.

Free Distribution of Medicine.

MADRID, Dec. 28.—At a meeting of

medical men, presided over by the governor of Madrid, yesterday, it was decided in view of the increase of the influenza to take immediate measures of relief, distribute medicines, etc., throughout the city. Senor Sagasta and several other members of the military are afflicted with the disease.

Hospitals Crowded in Vienna.

VIENNA, Dec. 28.—The hospitals of this city are crowded with patients suffering from influenza accompanied by inflammation of the lungs, pleurisy and peritonitis, and several deaths have occurred. There are over one hundred cases of influenza in Prague.

The Czar Recovering.

ST. PETERSBURG, Dec. 28.—The czar is making favorable progress toward recovery from his attack of influenza. He has not at any time been in a critical condition, and no fears have been felt as to the outcome of his illness.

Increasing at Lisbon.

LISBON, Dec. 28.—The number of cases of influenza in this city and Oporto is increasing. Two thousand have the influenza in this city including the queen and Senor Gomez, the foreign minister.

It Attacks Royalty.

LONDON, Dec. 28.—The Countess of Flanders, sister-in-law of King Leopold, of Belgium; Prince Baudouin, eldest son of the countess, and the Queen of Roumania, are suffering from the influenza.

A STEAMER SINKS A SHIP.

Two Sailors of the Ship are Cut Cleanly in Two.

PORTLAND, Ore., Dec. 28.—At 1:30 o'clock yesterday morning the American Pacific steamer Oregon ran into and sunk the British ship Clan McKenzie at Coffin Rock, on the Columbia river. Charles Austin and Matthew Reid, two colored sailors, were instantly killed. They were asleep on the forecabin of the Clan McKenzie, and when the bow of the Oregon struck her the sharp plate of iron ran into the bunks in which the sailors were lying, cutting the two men in half. They were struck at the waist and the upper part of each body fell into the river and sank.

Charles Fish, a coal passenger of the Oregon, was injured but not fatally. The Oregon was on way to San Francisco with a full cargo and full passenger list, and the Clan McKenzie was at anchor in one side of the channel. The captain of the ship claims that his lights were all properly displayed and that the vessel was moored parallel with the channel at the time of the collision. The Oregon was running under slow bell and ran her bow on the port side into the starboard side of the Clan McKenzie, a distance of thirty feet, tearing off the Oregon's bow completely, and ripping up decks and railing for about forty feet from the stern.

Immediately after the collision the ship began to settle, and soon sunk in four fathoms of water. All the crew were safely transferred to the Oregon and brought back to the city. The Clan McKenzie is a fine iron vessel. She came from Rio Janeiro in ballast. It is thought the vessel may be raised. She is valued at \$80,000 and is fully insured. The loss to the Oregon will be \$10,000.

A Widow's Terrible Crime.

LONDON, Dec. 28.—At Eastbourne, last night, Mrs. Taylor, a widow with two daughters, drank herself into a frenzy and cut the throats of her two girls while they were sleeping. After committing the terrible crime, the woman ran into the street brandishing the razor reeking with the blood of her children, and was caught and disarmed with great difficulty.

Texas Don't Like It.

AUSTIN, Tex., Dec. 28.—At a conference of the governor and attorney general yesterday it was agreed that the latter shall attend the habeas corpus trial of the Fort Bend citizens arrested for murder a day or two ago by the United States marshal. They are of the opinion that the arrests are without warrant of law.

NEW YORK, Dec. 28.—William Smedley, an employee of the Union Elevated railroad, Brooklyn, was killed yesterday by falling to the street while attempting to get on a moving train at the Myrtle and Washington avenue station. Mr. Smedley lived at 48 Ryerson street, and leaves a family.

Got the Wrong Medicine.

GOVERNEUR, N. Y., Dec. 28.—John D. Van Valkenburg, who was suffering from headache yesterday, went to Lavack's drug store and asked for five grains of antipyrine. Mr. Lavack, by mistake gave him five grains of atropine, a deadly poison. Mr. Van Valkenburg took the medicine at his home in the evening and despite the efforts of physicians died shortly afterwards.

MAGGIE THOMPSON'S SLAYER.

Otto Leuth is Convicted of Murder in the First Degree at Cleveland.

CLEVELAND, O., Dec. 28.—Otto Leuth, the 16-year-old boy who has been on

OTTO LEUTH.

trial here for six weeks on the charge of killing little Maggie Thompson, was yesterday evening found guilty of murder in the first degree. This has been one of the most celebrated cases in the criminal history of Cleveland. On the morning of the 9th of May last Maggie, the 8-year-old daughter of Jacob Thompson, a railroad man, left home for school. She did not return at noon, and her parents became alarmed. Nobody had seen the child, and the most diligent search failed to give a clue to her whereabouts. The kidnapping theory was adopted, and detectives were put upon the case.

The officers visited nearly every town in northern Ohio, and even spent several days in Cincinnati shadowing a woman who had known the Thompsons while they lived there, and had formed an attachment for Maggie. False clues were followed for a month, and everybody was about ready to abandon the search when a disagreeable odor coming from under the house of William Leuth, one of Thompson's neighbors, led to the discovery of the shockingly mangled body of the missing girl. The corpse was found by Otto's father.

This was on June 9. The whole family was taken into custody. At first Otto denied all knowledge of how the body came under the house, but later he made a confession to the police, admitting that he enticed the girl into the house, took her up-stairs, put her on a bed, beat out her brains with a hammer, and then tried to assault the dead body. The young fiend's mother was in the hospital at the time. His father was at work in Fremont. He had things all his own way at home. He left the body up-stairs two days, then carried it into the cellar and pushed it far back under the house.

The trial had been stubbornly contested by the defense, the theory being that Leuth was insane from hereditary epilepsy. The jury went out at 1 o'clock, and returned a verdict at about 7 o'clock last night.

While the jury was out young Leuth passed the time in jail eating, smoking and playing cards. He evidenced no emotion whatever when the verdict was announced, but his mother, who has fainted almost daily in court, gave an exhibition of her temper by denouncing the jury and judge as murderers, and declaring that the newspapers had convicted her boy.

ROSSER & MCCARTHY,
Proprietors.

SATURDAY, DECEMBER 28, 1889.

In France children are compelled to attend school until they reach the age of 12. They are then at liberty to go to the factory to work. Still they are obliged to attend school evenings until they receive what is considered a proper education. The unions are trying to get the age for compulsory attendance at school raised from 12 to 15 years.

A law something like that is badly needed in this country. There are hundreds of children under the age of twelve toiling from morn till night in factories, and growing up in ignorance.

It may be of interest to the reader to know the answer to a question put to Mr. George Jacob Holyoke, ex-member of Parliament, at a dinner given at the Tavistock hotel, London in honor of the Scripps League delegates. The question put was this: Have the wages of the English workman increased or decreased during the last ten years? He replied that the wages of the English workman had increased 3 per cent and their purchasing power 33 1/2 per cent during that time. Mr. Holyoke is the greatest authority on labor in England.

The above is from the pen of a member of the Scripps League and is clipped from the Cincinnati Post. It is well to bear in mind that the increase in wages referred to has taken place in what Republicans are pleased to call "Free-trade England." In this land of high tariff, there have been strikes and strikes in the past ten years against a reduction of wages.

"Kentucky Killings" Versus "Ohio Tragedies."

The population of Hamilton County, Ohio, including the city of Cincinnati, is about four hundred thousand. The population of Kentucky is two millions. Since the first day of January, 1889, there have been twenty-three murders in Hamilton County; nearly two murders a month; one murder for every thirty-five hundred of the adult male population of the county.

There have not been in the State of Kentucky in the year just closing fifty murders; not to exceed one for every eighty thousand adult males. And there have been hangings in Kentucky according to law for murders committed since the first of last January. And yet, in face of the terrible record, papers across the Ohio river will continue to delight in tales of Kentucky killings, with head lines *ad lib.*, at the same time veiling their own Ohio horrors under the head of "shocking occurrences" or "painful tragedies."—Covington Commonwealth.

Emmet in His New Play at the Grand.

Mr. Emmet's new play is superior to the several others that have been written for the favorite comedian. There is more in it, and it gives him every opportunity to display his many pleasing gifts. The surprises and complications have all been deftly arranged by the playwright, and one must see the play through to appreciate and enjoy it. The pretty children, the appropriate stage mountings, the splendid looking five-thousand-dollar dog Plinlimmon, the plot of the play as it slowly works out, Emmet's pleasing songs and occasional dances, altogether make quite a picturesque and thoroughly enjoyable entertainment. Mr. Emmet seems to be in the best of health and spirits, and enters into the humor and pathos of his part with his old-time enthusiasm. The comedy is called "Uncle Joe, or Fritz in a Mad House." The third act gives the key to the play. It takes place in a large boarding house that had been a lunatic asylum. Fritz goes there to see an old friend and at the same time there appears upon the scene the son of the doctor who had charge of the place when it was an asylum. He has just returned home after a long absence and is under the impression that the place is the same as when he left. The different boarders appear to him and Fritz as lunatics, and from this mistake many highly humorous scenes result. The characters are all well sustained.—Cincinnati Commercial Gazette.

Emmet will appear at the opera house, this city, next Wednesday night. The sale of seats commenced this morning at Taylor's. See advertisement for prices of admission.

WE'VE MADE UP OUR MIND

To ship all of the OVERCOATS not sold in the next sixty days to an auction room and have them sold at auction. This will cause us a very heavy loss, but it can not be helped. We are overstocked on account of the mild weather, and have not the room to carry them over for next winter. We prefer giving our friends and patrons the benefit of our loss, and for the next sixty days we will surprise the public by selling

OVERCOATS at Prices Never Before Known in Maysville!

Remember that when we advertise, we sell goods as advertised, believing that if the public is deceived once in advertisements they give no attention to them afterwards. We still give a ticket on the Gold Watch and Silver Water Service for every CASH dollar sale or dollar paid on account, until January 15th, when it will be given away.

AT Falmouth, while several persons were having some fun with fireworks Christmas night, James Sellers, in some unaccountable manner, had his pistol discharged in his pants pocket, the ball passing through and tearing away part of his person, and, entering the fleshy part of his limb, made a very painful wound. He was to be married in three weeks.

IF Rev. R. M. Gano, of Dallas, Texas, has any "scheme" to work in that far-off land, he generally comes to Kentucky to get people to help him out. During the past week he induced some of the citizens of Winchester to subscribe \$75,000 to the capital stock of a new bank at Dallas.

COLONEL WILL S. HAYS, of Louisville, has written and composed a song, dedicated to little Walter Haldeman Pearce, grandson of Charles B. Pearce of this city, entitled "My Boy." It is in the composer's best vein, and promises to become as popular as many of his other ballads.

THE Manchester Signals says Hammond Tolle, a well-to-do farmer of Lewis County, took sick six weeks ago with congestion of the stomach, and although a physician was in almost constant attendance, he absolutely refused to either take medicine or food, literally starving to death. He was a man upward of 70 years of age, a wealthy land owner and leaves a large family.

CHARLES RAMSEY and Wm. Joseph are on the rock-pile beating out a fine of \$33.75 each—assessed against them by Mayor Pearce. They are both bad men, Ramsey having done time in the penitentiary for shooting and wounding two different parties. They brought several hundred feet of two-inch cable to Maysville this week, and Marshal Heflin is looking for the owner.

MR. MARK A. DONOVAN, of this city, and Mr. George W. Bieln, formerly of Ripley, have bought the Winchester Democrat from Judge Beckner. Both are experienced newspaper men, and their many friends here wish them success in their new venture. Judge Beckner, in his valedictory, says: "There is one consolation in surrendering the Democrat. It goes into worthy, good hands, and will still represent the best interests of the people. Messrs. Bieln and Donovan have been connected with it for years and understand what a county paper should be. They are faithful, devoted Democrats, and upright, honorable gentlemen, who will see that a clean, decent journal is sent into the homes of their patrons."

THE audience at the opera house last night was not very large but it was an appreciative one and came away thoroughly delighted with the singing of the Swedish ladies. So charming was the music that every number on the programme was encored. The young ladies composing the double quartette must have been highly pleased at the warm reception accorded them. Melvin R. Day, amused the audience at intervals with some of his humorous recitations.

WHAT is true on this subject at Paris is true here in Maysville. The Record says: "There are some workmen who make from \$1.25 to \$2 per day, maintain families, and buy and pay for homes. How can they do that? Simply by saving a penny whenever and wherever they can. There are others who make much more money and at the end of the year if they could go to New York for 5 cents, they wouldn't have enough money to stand near the railroad track and see the trains go by. This simply shows the difference between men."

Railway News.

THE Chesapeake and Ohio has created a new position, that of General Superintendent, and on January 1 George W. Stevens will assume the duties of the place, with headquarters at Richmond, Va. Mr. Stevens is at present Superintendent of the Richmond, James River and Peninsular Division of the C. and O., with headquarters at Richmond, Va. Mr. I. G. Rawn, late Superintendent of Transportation, takes the latter position.

THIS week's edition of the Engineering News will say: "The list of new railway lines constructed during 1889, which we present with this issue, shows that the total addition to the main track railway mileage of the United States during the year will vary very little from an even 5,000 miles. This is the smallest construction recorded in any one year since 1885, when the total increase was but 3,588 miles. The construction in the intervening years has been: In 1886, 8,471 miles; in 1887, 12,668 miles; in 1888, 7,284 miles. The bulk of this year's construction has been done in the South. Over 2,000 miles of the new lines reported to us lie south of the latitude of Cincinnati and east of the Mississippi river."

Value of Standard Coins

An Estimate from the Director of the Mint.

CHANGES MADE FROM LAST YEAR

Foreign Coins Admitted for the First Time and Their Value Fixed—Latest News from Brazil—Other Dispatches from the National Capital.

WASHINGTON, Dec. 28.—The director of the mint has estimated, and the secretary of the treasury proclaimed, the values of the standard coins of the nations of the world, to be followed in determining the values of all foreign merchandise imported on or after Jan. 1, 1890. The following table exhibits the changes in the values of foreign coins from 1889 to 1890:

Coins.	Jan. 1, 1889.	Jan. 1, 1890.
Florin, of Austria.....	33.6	34.5
Silver Dollar, of Bolivia, Colombia, Ecuador, Peru, and the Central American States.....	68.0	69.8
Bolivar, of Venezuela.....	13.6	14.0
Rupia, of India.....	32.3	33.3
Silver Yen, or Dollar, of Japan.....	73.4	75.2
Dollar, or Peso, of Mexico.....	73.9	75.8
Rouble, of Russia.....	54.4	55.8
Mahbub, of Tripoli.....	61.4	62.9

The following coins have for the first time been included in the annual circle of values, two dollar gold piece of Newfoundland, value \$2.02 7/8; Shanghai tael, of China, value \$1.03 1/8; Haikwan (customs) tael, of China, value \$1.14 1/8.

The following table shows the values of standard foreign coins which have not been changed from the value fixed in the secretary's circular of last Jan: Argentine republic (peso), 96.5 cents; Belgium franc, 19.3 cents; Brazil milreis, 54.6 cents; British possessions, North America (except Newfoundland) dollar, \$1.00; Chili peso, 91.2 cents; Cuba peso, 92.6 cents; Denmark crexon, 26.8; Egypt pound (100 piastres) \$4.94 3/8; France franc, 19.3 cents; German Empire mark, 24.8; Great Britain pound sterling, \$4.86 1/2 cents; Greece drachma, 19.3 cents; Hayti gourde, 96.5 cents; Italy lira, 19.3 cents; Liberia dollar, \$1.00; Netherlands florin, 40.2 cents; Norway crown, 26.8 cents; Portugal milreis, \$1.08; Spain peseta, 19.3 cents; Sweden crown, 26.8 cents; Switzerland franc, 19.3 cents; Turkey pistre, 4.4 cents.

The secretary's forthcoming circular of Jan. 1, 1890, marks an important change in the values of silver coins, which were higher than for the preceding year, whereas, since 1879 the values of foreign silver coins have each year been estimated lower than for the preceding year.

Latest from Brazil.

WASHINGTON, Dec. 28.—Dr. Valente, the Brazilian minister here, has received a dispatch from Rio de Janeiro, concerning the action of the provisional government in depriving Dom Pedro of the annuity allowed him immediately after his deposition. The dispatch states that a plot to overthrow the provisional government was discovered, and Dom Pedro, as implicated in it. In the belief that the deposed emperor was plotting against the new government the provisional rulers revoked the decree granting him an annuity.

The Brazilian minister has received the following from Barbosa, minister of finance, under date of Rio Janeiro, Dec. 26: The report about the mutiny of a corps of artillery is false; it was only a mutiny of a few soldiers, which was immediately repressed. The aggravation of Fonseca's illness is not true; on the contrary, he is recovering speedily. The assistant doctor believes his recovery to be certain. At any rate, the fate of the revolution, now accepted by the whole country, does not depend on the contingency of one man's life, however precious it may be. In the army itself the revolution can rely on other chiefs of great prestige, and no less devoted to the cause. All the different political parties have espoused with enthusiasm the time fixed—Nov. 15, 1890—for the meeting of the constitutional assembly, they considering by this act the stability of the republic insured. Beware of newsmongers.

Conscience Money Returned.

WASHINGTON, Dec. 28.—United States Treasurer Huston yesterday received a conscience contribution of \$625 from Philadelphia. Accompanying the contribution was the following letter:

PHILADELPHIA, Dec. 26.
A client of mine has been carefully going over his affairs and finds that there are certain duties which he should have paid the government on cigars and other luxuries, which he has consumed during the past few years. As he foots them up they amount to \$625. He has handed me that sum and I now send it to you. Please forward receipt to me as attorney. He does not care to have his name disclosed, and I have advised him that there is no necessity for him to give it.
Very respectfully yours,
SAMUEL B. HUEY.

In Secretary Windom's mail was another contribution of \$296 in bills, enclosed in an envelope postmarked Washington, D. C. In a letter dated New York, the sender states that the money is to pay duties due the United States, uncollected through a misapprehension of importers.

Number Eight of the New Navy.

WASHINGTON, Dec. 28.—Secretary Tracy has accepted the cruiser Baltimore for the United States. The vessel will put to sea on Monday from Philadelphia and proceed to Norfolk and there be formally turned over to the government by the contractors, Cramp & Sons, of Philadelphia. The acceptance of the Baltimore prior to the receipt at the navy department of the official report of the trial board was somewhat of a surprise. Secretary Tracy, however, had received assurances that the vessel had proved a success and he decided not to postpone the acceptance.

The horse power developed on the trial trip exceeded the contract requirement in this regard by about 500, thus giving the contractors a premium of \$50,000. Of this amount \$20,000 will be deducted by the government for the expenses of the unsuccessful trial trip.
